VOLUME 24, No. 40 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — FRIDAY, APRIL 4, 1919

"Can't Afford to Paint."

The man who says that, forgets that painting properly done is economy, and the fact is he can't afford NOT to paint.

How often you require to paint is largely dependent upon the paint you use.

THE SHERWIN-WILLIAMS PAINTS

out last others. They are the most economical paints you can use, because they cover most and wear longest. Add to this their good appearance, and you have perfect paints—*The Sherwin-Williams Paints.*

They are made for many different kinds of painting. Whatever it is you want to paint—a house, or anything in or out of the house—we make the right paint for that particular purpose—not one slap-dash mixture for all.

What Sort of a Father Are You?

What sort of a father are you to your boy?
Do you know if your standing is good?
Do you ever take stock of yourself and check up
Your accounts with your boy as you should?

Do you ever reflect on your conduct with him?
Are you all that a father should be?
Do you send him away when you're anxious to read?
Or let him climb onto your knee?

Is a book more important to you than his talk;
Do you find that his chatter annoys?
Would you rather be quiet than have him about?
Do you send him away with his toys?

Have you time to bestow on the boy when he comes
With his questions—to tell him the truth?
Or do you neglect him and leave him alone?
To work out the problems of youth?

Do you ever go walking with him hand in hand?
Do you plan little outings for him?
Does he ever look forward to romping with you
Or are you eternally grim?

What memories pleasant of you will he have
In the years that are certain to come?
Will he look back on youth as a season of joy,
Or an age that was woefully glum?

Come, father, reflect? Does he know you to-day
And do you know him as you should?
Is gold so important to you that you leave
It to chance that your boy will be good?

Take stock of yourself and consider the lad,
Your time and your thought are his due;
How would you answer your God should He ask
"What sort of a father are you?"

ANONYMOUS.

Adoration

By JUNE FRANCIS DALE

Mother and I walked out to-day upon the pasture hill,
And wandered up the woodsy path that leads to Rippling Rill.
I watched the gentle breezes play with Mother's pretty hair,
While roses came into her cheeks. She looked so lovely there.

We found some shy, new violets—the pleasantest surprise—
But they were not one-half so dear as Mother's azure eyes.
She laughed and sang and played with me and told me fairy lore
While I caressed her soft, white hand and kissed the rings she wore.

She doesn't have the silken gowns of royal ladies fine,
But where is any Princess with a mother sweet as mine?
I never knew how wonderful she really was, until
We walked together up the path that leads to Rippling Rill.

Local and Personal

Two well located houses in Campbell for sale. See E. R. KENNEDY, sole agent, and make offer.

For Sale—Cottage of six rooms. Two large lots; good neighborhood. A Bargain. Terms. RALSTON ALISON. Care of Bank.

Mr. and Mrs. L. H. Willetts and Miss Ruth Willets of Ceres visited relatives here last week.

E. E. Sower has just received a shipment of Mens Elkskin Shoes. See them, Shoe repairing done neatly and quickly.

Mr. and Mrs. C. J. Ludwig of Oakland were week end guests at the Parso home last week.

Mrs. H. P. Wilkins and small son, who have been visiting Mrs. H. C. Smith for the past two months, left for their home in Seattle Wednesday evening.

Mr. A. L. Tomlinson of St. Cloud, Minnesota a boyhood and young manhood chum of Harry Smith, and Mr Spence of Minneapolis Minn., called at the Press Office Monday morning.

Miss Eva Bush, one of the faculty of the San Francisco schools, was a week end guest of Mrs. W. T. Alexander, and also visited the San Jose Normal and city schools on Monday.

Rev. W. E. Eckles will be back in his pulpit both morning and evening next Sunday. He will be happy to greet all his friends and all who appreciate a friendly, helpful church, as he takes up the duties of the pastorate again after his war service in France. Make the occasion notable by the largeness of the throngs in attendance.

The school election Friday passed of very quietly, the candidates both for High School and Grammar School, all receiving unanimous votes.

The faithful services of these unrequited citizens were deserving of a more complimentary vote, but there being no opposition, many good friends neglected the occasion.

Farewell Reception

If one can call farewells pleasant occasions, the reception given Friday evening to Rev. and Mrs. H. L. Preston and Mr. and Mrs. J. J. Vandergon and family was one.

At such times there is always an underlying strain of sadness, and both of these families have so endeared themselves to the people of the church that they will be sorely missed from all branches of the work.

The church parlors were prettily decorated with a variety of yellow spring flowers and shrubs.

An informal program included a piano duet by Mrs. Emily Gard and Wilma Smith, and vocal solos by Miss Evelyn Henry and Miss Marion Duncan, and brief words of appreciation from Geo. N. Stray, on behalf of the church; Mrs. Winfred Turner, ass istant superintendent, for the Sunday School, and R. G. Archibald for the Christian Endeavorers. Mr. Preston responded for himself and family, and at the earnest solicitation of the committee, Miss Josephine Vandergon related a few of her experiences overseas.

Cake and coffee were served and after lingering for further social converse with the departing friends the company slowly departed, with many expressions of good-will for the future.

Mr. and Mrs. Preston expect to remain here for a short time, altho Mr. Preston preached his farewell sermon Sunday. The people of Campbell are much in hopes that they may locate somewhere near enough to permit of occasional visits.

Mr. and Mrs. Vandergon and sons left Monday night, but Miss Josephine will remain for a visit with her sister in Morgan Hill and Miss Lucy will complete her school year there.

Ariel mail service was given between Washington and New York Saturday in a raging gale. The inventions of man are overcoming the elements in many ways.

Death of Little Alfred Baumgartner.

Little Alfred Baumgartner the six year old son of Mr. and Mrs. M. Baumgartner of Sunnyside, was taken ill last week and Friday the case was pronounced diphtheria, The little fellow seemed to be recovering nicely from the diphtheria, but the disease having weakened his little heart, he died Monday night at eleven.

The funeral was Tuesday evening, and and was strictly private. He was buried in Los Gatos cemetery. The rest of the family have all been innoculated and all have escaped the disease thus far.

Every precaution should be taken to prevent the spread of this contagious and deadly disease.

The bereaved parents and family have the sympathy of the entire community.

VICTORY DRIVE MEDALS

Medals made from captured German cannon will be awarded by the Treasury Department to volunteer workers who take part in the Victory Liberty Loan drive for $5,000,000,000 which will start April 21.

Inscribed on the face of the medal will be the name of the worker and the service for which the medal was awarded.

—"A man is judged by de company he keeps," said Uncle Eben. "But you's got to keep de company. You aint a gwinter be judged by de company you just bumps into."

MT. DIABLO CEMENT — SANTA CRUZ LIME

Red Cross Ladies Notice

The Campbell Auxiliary has now completed its quota of work. All those who have helped with the work are invited to attend a farewell meeting at the Red Cross room, on Friday, April 4th. at 3 o'clock P. M.

Policeman: "What are you standing 'ere for?" Loafer: "Nuffink." Policeman: "Well, just move on. If everybody was to stand in one place, how would the rest get past?"

"Look here," cried the irate farmer, rushing into the country store, "I wish you'd be more careful how you chuck things over this counter. You gave me perfume yesterday instead of liniment, an' I'd put it on the blessed cow 'fore I knowed." "I hope it hasn't done her any harm, said the storekeeper, in a mollifying tone. "Harm be hanged!" snapped the farmer. "That e're cow won't eat now, nor allow herself to be milked. The only thing she does is to sigh the whole day long, and go and look at her reflection in the pond."—*San Francisco Argonaut.*

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SCOUTS SPIED HUN WIRELESS

It will probably be a long time before the full story of all that the Boy Scouts of America have accomplished on the home battleground may safely be told.

The things that they have done in the sight of everyone, such as selling Liberty bonds and war savings stamps, and distributing information as dispatch bearers of the government, and locating black walnut for gunstocks and airplane propellers, and carrying to completion war gardens and assisting in farm work, and collecting nut shells and peach pits, and helping other organizations—are well known, but there is a side to their patriotic activity of which the public may not be generally aware.

There is many a Hun now interned who lays the ending of his trail of wireless conspiracy to the vigilance of a Boy Scout.

Not under suspicion, as the actions of a man would have been, these youngsters with their alert eyes and ears were able to locate many an illegal radio. In one day alone 26 were reported from "somewhere in America."

SCOUTS HELD FIRST PARADES.

After the signing of the armistice terms by Germany, the Boy Scouts of America were among the first to look ahead, and in an organized way planned for a vigorous continuance of necessary war work until the soldiers are all at home again and the costs of the war met by the money of the people.

Plans were made at national headquarters for a gigantic mobilization of scouts in every city in the country for the purpose of turning the attention of the people to the necessity for keeping up their war-time efforts.

All over the country there were orderly parades, the banners bearing slogans with constructive suggestions, such as, "Keep on Buying War Savings Stamps," "Be Ready for the Final Liberty Loan," "The War Is Over, but Our Work Is Not."

In Bucyrus, O., the scouts began to assemble at 2:30 a. m. The blowing of the whistles was correctly interpreted and the scouts started a mobilization on schedule time.

FARRE LIKES THE SCOUTS.

Lieut. Henri Farre, in addressing a body of Boy Scouts of America, said:

"Young men, you are the soldiers of the future. All of you are animated by the purest patriotic sentiments. Your young souls are already burning with impatience awaiting the day that your country may need your generous blood.

"You may be sure that the blood which runs at this moment on the soil of France, the blood of your older brothers, mixing itself with the blood of the French, will be the regeneration of the whole world and that it will strengthen the noble ideal which all Americans have in their hearts for liberty, equality and fraternity.

"Be proud of your brothers who are now fighting for this noble ideal. Soon they will bring back the purest laurels gathered in France. Already a part of this land has been torn away from this savage and ferocious enemy by your brothers who are fighting with irresistible courage. Vive l'Amerique! Vive la France!"

SCOUTS OBSERVE GOOD TURN.

Boy scout councils all over the country are beginning a vigorous campaign to emphasize the "Do a good turn daily" slogan and the careful personal observation of the scout oath and law.

Intensive scouting will be the thing from now on. With the splendid leadership to be found among returning army officers, taking over boy scout troops as scoutmasters, there is no doubt that the boy scout movement will see its greatest period of development during the coming year.

POLICE PRAISE FOR SCOUTS.

When the New York police department gave the formal permit to the boy scouts for the first organized and uniformed Victory parade, it was accompanied by a letter from Deputy Police Commissioner Frederick A. Wallis, in which he said:

"I want to congratulate you on the character and scope of the work of the boy scouts. I believe you are weaving into the warp and woof of their young lives a fiber of citizenship that will go a long ways toward helping this nation realize the high ideals for which we are all striving."

Fished in Vain.

Mrs. Fisher — You wouldn't suppose that I had a son in school, would you?

Mr. Blunt—No, indeed. I had an idea that all your children must be through college by this time.

Modern Use of Bow and Arrow

A new toy for the kiddies is this novel bow and arrow, which shoots miniature airplanes into the air. The arrow is permanently attached to the bow, and the toy plane put on. When released the plane goes on its way and the arrow remains attached to the bow. An additional supply of planes can be carried on the belt around the waist. Photograph shows plane just as it was released.

LAUGHING IS A HEALTH TONIC

Makes More Forceful the Beat of the Heart

When the individual laughs the action is accomplished by a deep, forcible movement of the chest. This deep movement increases the rapidity of the roundabout flow of the scarlet fluid, makes more forceful the beat of the heart, observes an authority, and by that means brings back the blood to the lungs at a greater pace, and therefore helps to accomplish a quicker nourishment of the body and thus brings mental reaction.

More than mental rest and benefits to the health of the mechanism, a good laugh brings with it food for the emotional fabric. The physiological action involved in a hearty laugh stimulates the emotions and acts in the capacity of an increased electric current in a wire by whose force machines are moved. The hairlike capillaries, so strained and worked during the course of a busy day, become rapidly emptied as laughter incites the emotional fibers' action.

As the immediate result, there comes relief to the tubes in the form of a freshened supply of food. The heavily congested capillaries and the emotional fabric are stimulated, and the body is enabled to generate new energy, due to the emotional excitement caused by a laugh, and you feel regenerated and capable of carrying on with added force whatever work you are doing.

Airplane Proves Success as Mail and Freight Carrier

The airplane has proved its success as a carrier of mail; and in the Southwest, where most of the army's flying fields were laid out, airplanes are used daily for all around utility business, says Red Cross Magazine. A recent report from a Texas field tells of a pilot flying 125 miles from a practice field to the wing headquarters and carrying as a prisoner a watchman who had fallen asleep on duty. Upon his return trip to the camp, he carried $2,500 in pay vouchers, 100 pounds of bread, four airplane wheels, landing gear and struts. In addition he tucked in a large bundle of papers and magazines and a pouch full of mail.

Lest We Forget.

The presidents of the United States have been Washington, Adams, Jefferson, Madison, Monroe, J. Q. Adams, Jackson, Van Buren, Harrison, Tyler, Polk, Taylor, Fillmore, Pierce, Buchanan, Lincoln, Johnson, Grant, Hayes, Garfield, Arthur, Cleveland, Harrison, McKinley, Roosevelt, Taft and Wilson.

Who Would Not Agree That Americanization of Hotel Menu Would Help a Little?

Americanization of various things is the topic much discussed now, observes Tavern Talk. We read of a movement in industry to Americanize employes to increase efficiency. This is timely; why not carry the idea further at once and apply it in the hotel industry?

A good beginning would be a movement to eliminate the practice of compiling menus, which are a combination of meaningless French and distorted English. Why caviar canape, when an English equivalent exists? Why not clam broth instead of bouillon? Why grilled when we mean broiled? Norwegian sounds and looks as well as Norvegienne, and means something. Pommes julienne with an English name would taste as sweet; glace is a poor ending for good sweet potatoes, while demi-tasse is but the size of the cup, not what it contains.

WORDS OF WISE MEN

Every breath of air and ray of light and heat, every beautiful prospect is, as it were, the spirits of their garments, the waving of the robes of those whose faces see God.—Dr. J. Henry Newman on the "Angels."

Human agencies achieve their legitimate results without regard to the motives that give them impulse.—Hurst.

Raptures are troubled pleasures.—De Quincey.

It is not hard to die. It is harder a thousand times to live. To die is to be a man. To live is only to try to be one.—H. W. Beecher.

Flexible Asbestos Clothes Saves Workers From Injury

If you are engaged in any hazardous work around fire or extreme heat, such as in a foundry or steel mill, there is no excuse for scorching or burning yourself, says Illustrated World. There is manufactured a complete line of safety-first suits, including leggings, gloves, mittens, aprons, coats, trousers and helmets. The material from which the articles are made is not brittle, but flexible enough to make handling of other materials easy. This safety-first wearing apparel is manufactured from asbestos, treated by a secret process which prevents the nap from rubbing off. This is said to add to the life of the fabric and to its appearance as well. The clothing is used extensively by big business concerns engaged in iron, steel, brass, welding, smelting, glass, chemical and similar work for the protection of employes.

THE DAIRY

PLAN FOR BETTER DAIRYING

Joint Ownership of Purebred Sires Enables Herd Improvement at Minimum Expense.

Dairymen who would like to use purebred bulls to improve their herds but who cannot afford to purchase such animals should investigate the advantages of a co-operative bull association. These organizations are formed by farmers for the joint ownership, use and exchange of purebred bulls. The purchase price and cost of maintenance are distributed according to the number of cows owned by each member, thereby giving the dairyman an opportunity to build up his herd at a minimum expense. The organization also helps its members to market dairy stock and dairy products, to fight contagious diseases of cattle intelligently, and in other ways to assist in improving the dairy industry.

The typical co-operative bull association is composed of from fifteen to thirty farmers, who jointly own five bulls. The territory in which these farmers live is divided into five "breeding blocks," one bull being assigned to each block. As many as fifty or sixty cows may belong to the farmers in each block, and the bull in the block should be kept on a conveniently located farm. To prevent inbreeding each bull is moved to the next block every two years. If all the bulls live, and if all are kept until each has made one complete circuit, no new bulls need to be purchased for ten years. In this way each member of the association has the use of good purebred bulls for many years, at a cost of only a small part of the purchase price of one good bull—usually less than is invested in a more inferior bill owned by individual dairymen.

In a survey conducted by the United States department of agriculture on 1,219 farms in eight districts in Iowa, Minnesota and Massachusetts in which there were no associations, it was found that there were 817 bulls, having an average value of $76. Had the owners of these cheap bulls been properly organized the same investment would have purchased the necessary bulls of an average value of $283. In one association having more than 100 members the original cost of good purebred bulls to each member was only $23. When questioned regarding the value of co-operative bull associations, 150 farmers in Maryland, Michigan and Minnesota estimated that the

Purebred Bull.

use of bulls belonging to the organization increased the value of the offspring in the first generation from 30 to 80 per cent, with an average of 65 per cent.

The selection of the bulls for an association is one of the most important considerations. A good purebred bull will make rapid and marked improvement in the herds, and the association interest increase in proportion to the improvement obtained. If a poor dairy bull is used the milk production of the members' herds is sometimes reduced, the interest is lessened, and these conditions may lead to the breaking up of the association. Success in the operation of an association depends a great deal on the care that is used in its organization. Dairymen contemplating forming an association should consult the local county agent, write to the state agricultural college or to the dairy division of the United States department of agriculture at Washington for advice and assistance. The farmers' bulletin previously mentioned will be found of great value along this line, particularly the suggestions which are given in connection with the constitution and by-laws.

ATTRACTIVE CONTAINERS

The use of neat and attractive containers for butter, standardized to a uniform size and style, is highly desirable both for local and foreign markets. Carelessly packed butter has not only a poor appearance but also usually brings a lower price.

AGITATION OF COLD CREAM

Sometimes It Will Whip and Expand Until Churn Is Full and Butter Will Not Form.

Sometimes when cold cream is agitated in the churn it will whip and expand until the churn is nearly full. In this condition butter will not form because the cream cannot be sufficiently agitated. When a low temperature of the cream is the cause of difficult churning the trouble may be easily corrected by raising the temperature.

U. S. Forces 4,791,172 at End of War

Reserve of 2,340,000 Class I Men Waiting to Be Mobilized When Armistice Was Signed

The United States was ready to increase its fighting force to 7,131,172 men during 1919 if the war had continued, Provost Marshal General Crowder stated in his annual report to congress.

A reserve of 2,340,000 class 1 men was waiting to be mobilized when the armistice was signed, the report stated, the armed strength of the nation then being 4,791,172 men. When war was declared the armed strength was 378,619 men.

Two out of every three men in uniform were raised through the draft, Crowder stated, the total number inducted during the war being 2,810,296. Every one was taken from class 1.

Only 18 per cent of the men of military age, 18 to 45, were in the service, the report stated, while England contributed 62 per cent of her available fighters.

In all 24,234,021 men were registered by the great draft system for military service.

Seven per cent was the maximum percentage of men taken from any one industry.

The farmers were treated better than any other workers, 69 per cent of those registered being granted deferred classification. Comparatively few married men were taken, the records showing that 89 per cent of them were deferred.

Physically the nation is 70 per cent perfect, according to the draft examiners. This is the percentage of the men found fit. This does not include the limited service men or those whose defects could be remedied.

The highest percentages of physical fitness come from the middle West. Oklahoma led the nation with 82 per cent, closely followed by Arkansas, Kansas, Nebraska, Wyoming, Texas and North Dakota. Rhode Island and Arizona show the largest percentages of physically unfit, with Connecticut, Massachusetts, Vermont, New York and Washington close. Rhode Island had only 53 per cent fit and New York 60 per cent.

Liquor was the smallest factor in causing physical rejections, the percentage being only one-tenth of 1 per cent. Heart troubles, eyes, tuberculosis and mental defects brought the largest number of rejections, each claiming more than 19 per cent of the total disqualified. Flat feet took only 1.3 per cent.

Gen. Crowder's "work or fight" order forced 120,000 men either into the army or useful work and his drive on the slacker marriages added 123,000 men to class one. Eighteen thousand waiters alone changed their work, as did 17,000 clerical workers. More than 295,000 are still classed as deserters by the provost marshal general's office, having failed to answer calls or register. About 67,000 have been apprehended.

Eight thousand convicts or ex-prisoners were inducted and their records show they have made fine fighting men.

Gen. Crowder closes his report with a tribute to all who helped make the draft a success. The total cost of the draft was only $16,000,000 and Gen. Crowder had $38,000,000 in appropriations waiting to go back to the treasury. The per capita cost of the inductments was $6.52, as compared with $217 in the '60s. The cost of enlisting a volunteer was $28.95 during the operation of the draft.

TIPS FOR THE POULTRY GROWER

That laying hens will increase their production if fed a properly proportioned ration has been demonstrated in Missouri this winter. And the ration costs no more than some of the carelessly compounded rations many flocks receive. Here is the ration expressed in quantities sufficient to feed 100 hens one day:

Scratch Feed—Ten pounds shelled corn or kaffir and 5 pounds thrashed oats or barley. Feed in deep litter morning and evening.

Dry Mash—Three pounds bran or 3 pounds cornmeal, 3 pounds shorts or 3 pounds ground oats, and 1½ pounds beefscrap or 1 pound tankage. Three gallons of milk may be substituted for the beefscrap or tankage. Keep this mash before the birds at all times.

In addition to this feed, supply green feed in some form, plenty of fresh water and grit and shell.

The use of the foregoing ration has been advocated by the extension service of the University of Missouri college of agriculture.

Ten communities have reported results for 30 days which shows a percentage increase of 173. This means that all communities reporting are receiving a double return in number of eggs laid, and one community reports that the yield has been increased seven-fold. This is conclusive evidence that the ration is practical, and that a laying hen, well fed, will respond to good feed.

First Discovery of Gold in California Was in 1848

The first gold in California was discovered 71 years ago, on January 24, 1848, by James Wilson Marshall. He was a native of New Jersey who had gone West and settled on the site of Sacramento. Blasting away some rocks to make a foundation for a building, he observed grains of what seemed to be gold scattered about in the excavated earth. A test revealed that it really was the precious metal. Wild excitement followed the discovery, and the immortal rush of the "forty-niners" brought thousands of miners and adventurers to the golden state. Marshall, the discoverer, did not profit from his find and would have spent his last days in poverty except for a small pension granted him by the state of California.

Active Volcano.

The most active volcano in the world is Mt. Sangay. It is 17,196 feet high, situated on the eastern chain of the Andes, South America. It has been in constant eruption since 1728.

Immense Food Supplies for Brave Yanks Across Seas—The Daily Stocks in Hand

Whoever goes hungry in Europe this winter it will not be the American soldiers, notes a correspondent. The daily stocks in hand reported by the quartermaster's department of the American expeditionary forces gives an idea of supplies only when it is remembered they represent reserves held between daily consumption and arrivals known to be en route. Potatoes furnish a striking example. The stock in hand at the last report was 8,200,000 pounds, and yet the American forces are receiving 30,000 tons of potatoes a month, which makes 60,000,000 pounds, chiefly from Ireland. Potatoes being perishable, it would not be wise to keep double the daily stocks in hand. Others were as follows:

Fresh beef, 16,600,000 pounds; tinned beef, 23,700,000 pounds; tinned bacon, 26,300,000 pounds; tinned salmon, 9,440,000 pounds; flour, 166,000,000 pounds; oatmeal, 2,000,000 pounds; cornmeal, 6,000,000 pounds; dry beans, 26,000,000 pounds; baked beans, 27,000,000 pounds; rice, 8,000,000 pounds; onions, 1,000,000 pounds; tomatoes, 36,000,000 pounds; jams, 2,000,000 pounds; prunes, 2,000,000 pounds; sugar, 28,000,000 pounds.

This list does not include other foods running beyond a million pounds, like dried vegetables, syrup, bacon in bulk, hardtack, hominy, dried and fresh fruits, as well as cheese, macaroni, butter and lard.

U. S. January Expenses Totaled $1,962,350,000

Big payments to allies under credits previously established, as reported by the treasury, raised the total of allied advances in January to $290,250,000, and aggregate government expenses for the month to $1,962,350,000. This is $97,000,000 less than the record of December. War savings sales reached $70,996,000.

WITH THE SAGES

It is a proof of boorishness to confer a favor with a bad grace. How little does a smile cost!—Bruyere.

Without thought there can be nothing done that can be truly called a work.—T. A. Edison.

Ill fortune never crushed that man whom good fortune deceived not.—Ben Johnson.

We should be ashamed to think what we should be ashamed to do.—W. Pickford.

STOP! CALOMEL IS QUICKSILVER

It's mercury! Attacks the bones, salivates and makes you sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and cannot salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.—Adv.

Rhetorical Caution.

"Do you advise a man to strive for well-rounded periods in writing a speech?"

"Emphatically," replied Senator Sorghum. "In fact, if some of us could devote all our time to the punctuation marks and omit words entirely, everybody would feel safer."

Met the Old Man's Views

"But I am so unworthy of you, dear," he murmured as he held her close to him.

"Oh, Fred," she sighed, "if you and father only agreed on every other point the way you do on that, how happy we should be!"

Men and Women

Women as well as men are made miserable by kidney and bladder trouble. Dr. Kilmer's Swamp-Root, the great kidney medicine, is highly recommended by thousands.

Swamp-Root stands the highest for the reason that so many people say it has proved to be just the remedy needed in thousands of even the most distressing cases.

At druggists in large and medium size bottles. You may receive a sample size bottle of Swamp-Root by Parcel Post, also a pamphlet telling you about it. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper.—Adv.

Had the Mitten.

"There is one thing I would like an expert electrician to explain to me."

"What is that?"

"Why a decided negative is always so positive."

Their Locality.

"Jimmy Smith is home from school sick, ma. His brother says he's got the shingles."

"Has he?"

"Yes, and, ma, do you get the shingles in the roof of your mouth?"

Watch Cuticura Improve Your Skin. On rising and retiring gently smear the face with Cuticura Ointment. Wash off Ointment in five minutes with Cuticura Soap and hot water. It is wonderful sometimes what Cuticura will do for poor complexions, dandruff, itching and red rough hands.—Adv.

Doesn't He, Though?

Mrs. X. — You surely don't give your husband a necktie every Christmas?

Mrs. Y.—Yes. And the poor dear never seems to know that it's the same one.

Fortunate

"Jorkins complains that he suffers from lack of memory."

"Suffers? Jove! he's in great luck, considering his past."

TO BREAK IN NEW SHOES ALWAYS USE Allen's Foot-Ease, the antiseptic powder. It prevents tightness and blistering. Relieves Corns, Bunions, and Swollen, Sweating, Aching Feet. Gives rest and comfort. Accept no substitute. Sample FREE. Address, Allen S. Olmsted, Le Roy, N. Y.—Adv.

No Use for Them.

"I never take my politics to bed with me."

"That explains why you seem to have no use for political sheets."

Their Idea.

"What is the principle of repeating rifles?"

"I suppose it is to make every shot tell on the enemy."

Make more Money Pull big stumps by hand

Showing easy lever operation

Clear your stump land cheaply—no digging, no expense for teams and powder. One man with a K can rip out any stump that can be pulled with the best inch steel cable.

Works by leverage — same principle as a jack. 100 pound pull on the lever gives a 48-ton pull on the stump. Made of the finest steel—guaranteed against breakage. Endorsed by U. S. Government experts.

Small Stove Is Dangerous As a Source of Fire When Overheated or Overloaded

Unless properly installed and used the small stove is dangerous as a source of fire, according to the United States department of agriculture. Some people expect too much of a small stove and overwork it. If a stove is too small for the space it is expected to heat it is liable to be overheated or filled so full of fuel that fire will fall out on the floor when the door is opened. The pipe also is liable to be overheated and the resultant danger is cited as a great source of farm blazes.

Stoves should not be placed close to papered walls or woodwork unless proper protection is provided. The floor near stoves or fireplaces also should be covered with some non-inflammable material. Screens, to prevent coals dropping on the floor, should be placed. The door leading to the fire box on a stove should never be left open to check the draft, as the small explosions constantly occurring in the fire are very apt to throw out live coals and start a fire. Open fireplaces should not be used unless provided with effective screens.

Chimneys should be cleaned regularly to remove soot and any other inflammable material. This is best accomplished by means of pieces of metal (such as scrap tin), limbs of an evergreen tree, or a bundle of brush attached to a rope, chain, or wire and worked up and down in the chimney from the top.

Bodies of Americans Who Died in France During the War to Be Brought Home

Bodies of Americans who died in France during the war will be transferred to the United States if their nearest relatives so desire. Otherwise the dead will remain undisturbed.

Already a large number of relatives have informed the war department of their desire to have the bodies returned. In the near future a letter will be sent to the nearest relative of every soldier or civilian whose body rests in France, asking their wishes with regard to the transfer.

A memorandum on this subject, drafted by Lieut. Col. J. C. Ashburn of the adjutant general's department, says:

"It cannot be stated just now when the transfer of bodies will begin, as it must be deferred until conditions, including that of transportation, warrant the undertaking. Due notice will be given through the public press.

"It is not deemed advisable to grant requests for relatives, friends or undertakers to go to France to superintend the preparation and shipment of, or to accompany bodies back to the United States. Organizations have been formed, known as grave registration units, whose duty it is to look after burials, care of cemeteries and preservation of identification records so that there will be no question as to identity."

HAVE A LAUGH

High.

"Does your butcher continue to explain why things have gone up?"

"Not any more. He simply makes the high sign and lets it go at that."

Looking Ahead.

Kathryn—"What do you think of Katie Pflapper, the latest society bud?"

Kittye—"I think by next season the bud will be a full blown wallflower."

Its Class.

"We had a sensational case of kidnaping at our house last night."

"What was that?"

"The baby slept all night."

Woman's Way.

"She's giving a very elaborate party."

"Gotten up solely on my account."

"I thought you two were on the outs."

"We are. And that's the reason she got up the party."

Hard Words.

"Why did you hit this man?"

"Your honor, he grossly insulted me."

"But how?"

"He said I didn't have any more fight in me than the German navy."

Keeps Buzzing.

"I'm troubled with a buzzing noise in my ears all the time."

"Have you any idea as to the cause?"

"Yes, my wife wants an auto."

We Know.

"What has become of sawmill drama?"

"Eh?"

"You know. The kind that was written by a stage carpenter."

Had to Hand Out.

"What did pa say when you told him you wanted to marry me?"

"Asked me to lend him ten dollars."

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

Family Verbs

Speaking of odd verbs, it has been the custom for years in a certain Boston family to say when the weather has cleared, "It has niced up." The other day one of them was even heard to say, "It has niced up nicely."

Mechanical Age

"You don't seem to have as much troubles with horse thieves as in the old days."

"No," sighed Cactus Joe. "Ain't it awful how the automobiles has took the poetry out of life?"—Washington Star.

Your Eyes Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggists or by mail 60c per Bottle. For Book of the Eye free write h-18 Murine Eye Remedy Co., Chicago.

Start of "Reel" Scrap

First Director—How did you get those actors to put up such a realistic fight?

Second Director—I told each one on the quiet that the other considered him a punk scrapper.—Film Fun.

Statistics

"Were you ever disappointed in love?"

"Two and a half times, dear lady."

"Two and a half times?"

"Yes; twice married and once rejected."

Laugh When People Step On Your Feet
Try this yourself then pass it along to others. It works!

Ouch! ? ! ? ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.—Adv.

Pundita Circle

Mrs. H. H. Portus has as her guest, Mrs. May Mitchell, known to the Australian Army as "Nurse Jack," and who was with them during the most terrible battles of the war. She was seriously wounded several times, and was given the title of "Sister Jack" on the field, and received from King George the highest honors and decorations conferred on a woman in the British army. "Nurse Jack" very modestly speaks of her own bravery, and her work among the wounded was too sacred for words, but nevertheless she has kindly consented to speak at the April party to be held by Pundita Circle at Mrs. Turner's home Saturday evening.

—Mrs. Parker: Now, young man, why aren't you at the front?
Young man (milking a cow)— 'Cos there ain't any milk at that end, misses!—
—tid bits

W. C. T. U. Reception to Miss Vandergon and New Members

The Woman's Christian Temperance Union held a delightful meeting with Mrs. Whitman Wednesday afternoon, April 2, Mrs. Baldwin presiding. There were devotionals and saluting the flag as usual. Declarations of principels were read responsively After reading of minutes the responsive welcoming service was used in welcoming several new members. Encouraging replies had been received from Assemblymen and Senators in response to requests for support of bills in which the Union is interested. It was decided to hold a demonstration of Aluminum Ware on Wednesday, April 9 3:30 P. M. at the Coffee Club building. There will be an admission fee of ten cents each. Every lady attending receives a piece of Wear-Ever Aluminum as a gift from the demonstrator The plan is to have the agent demonstrate the use of the ware in cooking, instruct in the best way of caring for the ware and to have articles on Sale for those wishing to buy. The door money will go to help the W. C. T. U. in raising the $60.00 apportioned Campbell Union The co-operation of all members and friends is necessary to make a success of the venture.

Mrs. E. R. Smith announced a meeting soon to be held in the interest of the Social Service Convention to be held in the parlors of the M. E. Church on April 14, 3 p. m. under the auspices of the Woman's Club. Miss Arnott played "Lead Kindly Light" with variations to the great enjoyment of those present. Miss Vandergon of her joy at being home once more, of her appreciation at being remembered by the Union, thanked the members for their kindness to her mother. When asked what she had gotten out of her experience on foreign fields said she felt more than ever proud of what America had done and glad that she was an American. There were also readings by Miss Marshman and Mrs. Kennedy.

Club Enjoys Social Time

An unusual event lent attraction to the meeting of the Home and School Club Tuesday. After some time spent in work the sewing was laid aside and the ladies enjoyed a social hour. Several of them had brought cakes and tea was served, the first time that the members have indulged in refreshments simply for their own enjoyment.

The W. C. T. U. sent in another of the "Company" quilts, which they had completed, and the Grammar School furnished a bolt of cloth to be made into women's kitchen aprons, for which there is an urgent call.

Mr. Kammerer reported that the Jr. Red Cross (Grammar School) made a very good showing in the recent Red Cross drive for clothing, considering the many preceding calls, a small truck being sent in. Miss Atkinson's room held the record for the number of bundles, but the others all did well—good sized bundles, too.

Important business is scheduled for the meeting next Tuesday and a good attendance is desired

The N and S Club was delightfully entertained at an April fools' party at the home of Miss Jessie Lewis

Marines organized against Bolshevik propaganda

While Marines serving over seas are fighting the Bolsheviks, Marines in this country have organized to combat Bolsheviki and I. W. W. propaganda.

Although little has been said regarding the work of the U. S. Marines in this respect, they are accomplishing much toward defeating the insidious work of the Bolsheviks. The doctrine preached by the bearers of the red flag finds fertile ground in ignorance, and bolshevik agitators have taken advantage of this to distribute anarchistic literature among the foreign populace of American cities. The average Marine who has seen service in many lands and usually has half a dozen languages at his tongue's end, is particularly qualified to explain to these people the dangers attending Bolshevism.

The latest activity of Bolshevik agents has been the distribution of propaganda among the Indians. Before the work had progressed very far, however, the information reached the Marines with the result that Sergeant Thomas Steele, who speaks several Indian dialects and is familiar with Indian customs, was dispatched on a motorcycle to visit various Indian reservations and check whatever progress the Bolsheviks had made.

He is succeeding wonderfully well; and is organizing American Clubs among the Redmen. The picture shows Sergeant Steele distributing literature explaining the principles of Americanism and what America's ideals stand for.

Don't Mutilate Fruit Trees to Decorate Autos!

A SUGGESTION in yesterday morning's Mercury Herald cencerning the decoration of automobiles with fruit blossoms on the occasion of the Saratoga Blossom Festival has raised a veritable storm of protest from orchard owners and improvement clubs. The intention behind the suggestion was doubtless good, but the writer evidently did not take much thought concerning the effect that would follow the adoption of his suggestion. Autos decorated with fruit blossoms are doubtless objects of beauty, but not so beautiful as unmutilated trees in bloom. We trust that the suggestion will not be followed.

Campbell History to be Preserved

The annual meeting of the Campbell Library Association was held Tuesday afternoon at the library. Reports of the year's work were given and officers and directors elected. J. F. Duncan was chosen president, Mrs. L. F. Shaw, secretary and Mrs. E. R. Smith treasurer, with J. C. Ainsley, Dr. C. N. Cooper and C. H. Whitman completing the board.

The Country Woman's Club gives $90 toward the up-keep of the library and an additional $50 will be raised by public subscription.

The librarian was asked to receive and properly preserve any things bearing upon the history of the town, as old newspapers, records, pictures, etc. Any one having such data is requested to leave them at the library for the beginning of a historical record of Campbell and vicinity.

Local and Personal

Wanted—Family sewing and dressmaking. Mrs. Drake 69 Central Ave, Campbell

Mrs. Irene Preston, of Des Moines Iowa, who has been spending the winter with her son in Oakland, is visiting her cousin, Rev. H. L. Preston.

Rev. E. T. Preston, from Kelsville, California, made a brief visit in Campbell last week with his brother, Rev. H. L. Preston.

The class in millinery of the domestic science department of the C. U. H. S. will have a display of its work Thursday and Friday in the window of L. Genasci & Son.

A meeting will be held in Campbell April 14 for the women's clubs relative to the State Conference of Social Agencies which will occur in San Jose April 22-25.

Married, Tuesday, April 1, 2 P. M., at the Congregational parsonage, Mr. Antonia Manuel Valencia and Harriet Oliva Adams, Rev. H. L. Preston and Rev. W. E. Eckles officiating. They will make their home in Oakland.

Notice,—An admission fee of ten cents will be charged at Pundita Circle's April party to be held at Mrs. James Turner's Saturday evening, April 5. An entertainment called "An All Star Night" will be given. Come and enjoy a pleasant evening.

The Joint Centenary Movement is active in good works this week. A unit meeting was held Tuesday night at the home of Mr. Jones, No. 30 Rincon avenue. The Epworth Unit meets Friday night in the Sunday school room. Miss Doris Leviston is the leader of this unit.

Mr. and Mrs. Meacham, from Pipestone county Minnesota, are visiting Mrs. Meacham's father, Mr. J. M. Butts. They expect to remain about a month. They left their home the 20th of February and have been visiting in San Diego. They are enjoying California very much.

Miss Adah Nelson came home Saturday night to bid good-bye to her cousins, Mrs. Nelson and Mrs. Robertson, who have been visiting in her home, and were leaving for a short visit in San Francisco before returning to their home in Boseman, Montana. Miss Nelson was feeling fine when she came home, but suddenly came down with a light case of Diphtheria. We are glad to announce that she is doing very nicely.

Dr. J. C. Maxson and wife and son Private Harold Maxson and daughter, Miss Hilda Maxson from Corning Kansas came down from Oakland a week ago Thursday to visit Mrs. Lanphear and Miss Maxson, sisters of the Doctor.

The Doctor quit the service at Camp Funston Medical department last November, and his son, Private Harold has just recently been released from Fort Sill, Oklahoma. They expect to make an extended visit and tour the state for a time enjoying the beautiful scenery and climate of California and may possibly locate somewhere in the state.

7	pairs of Wristlets.
1	Scarf.

The work of the Campbell Unit is now completed and Campbell women are to highly complimented for their enthusiasm and faithfulness and for the goodly amount of work they have accomplished.

High School Notes

The faculty and students of the high school are industriously making preparations for the May Festival which will be given on the evening of May 29 and 31. Campbell High is noted for its festivals for they are always "The Big" event of the year. Everyone should make a special effort to attend the May Festival for it is not a common affair that may be enjoyed every day or two. It requires several weeks of hard work to successfully complete such an entertainment. However, when the preparation has been completed every one will admit that the play has a great educational value because plays from Shakespeare have been chosen.

This year his "Midsummer Night's Dream" will be fully as interesting and valuable as "The Idylls of the King" was last year.

The Free-hand Drawing class are making little Easter cards to send to the nine liittle orphans of France, which the Students Body adopted some time ago.

The designs were originated by the children. The students enjoy making things that will please the orphans. Some of the boys and girls have sent personal messages with the cards, enclosing their addresses and hoping the children will write to them. The boys high school cadet company is begining to look like a 'regular formation" This is the first year that military training has been given in this school. The boys enjoy every bit of their drill work and consider it a great pleasure to "show off" by marching like true soldiers before the girl's drill team.

Never-the-less, the girls are "getting there" and are mighty proud of both their company and the boys company as well.

The following are the officers of the boy's company.

Major	D. H. Cramer.
Captain	Harold Couk.
First Lieutenant,	George Guhe
Second Lieutenant,	Rudolph Hoerler
First Sergeant,	Raymond Hulseman
Quartermast Serergeant,	Emil Mrak
Sergeant,	Fred Heinzen.
Sergeant,	Floyd Howes.
Sergeant,	Nat Jones.
Sergeant,	Maurice Buckeley.
Corporal,	Roy Bartholomew.
Corporal,	Elmer Chase.
Corporal,	Leroy Sharp.
Corporal,	Melvin Cairns.
Corporal,	Edward Day.

Save Lovers' Point!

Many Pacific Grove residents will regret very much the intention of the navy department to begin tomorrow morning to blast away the rocks at "Lovers' Point," if, indeed, it is the intention of the Government to do so. Lovers' Point has been one of the Grove's most important attractions for so many years that it would seem a shame to reduce it now, with a big summer season ahead, and people from all parts of the State anticipating delightful hours on those charming and romantic rocks. A rousing protest should meet any attempt to desecrate this noted rocky point, and it should be made early before any workmen can get on the job with their blasted N. T.

HOW NOT TO JUDGE MEN.

Don't judge a man by his family relation, for Cain belonged to a good family.

Don't judge a man by the clothes he wears. God made one and the tailor the other.

Don't judge him by his speech, for a parrot talks, and the tongue is but an instrument of sound.

Don't judge a man by his failure in life for many a man fails because he is too honest to succeed.

Don't judge a man by the house he lives in, for lizards and rats often inhabit the grandest structures.

Don't judge a man by his acts alone, but by the motive that prompted the acts.

"Judge not, that ye be not judged."

Notice of Expiration of Subscription

A blue pencil mark around this notice indicates that your subscription expires this month. Prompt renewal will be very much appreciated. Make checks payable to Interurban Press.

'Why diden't you come for the wash yesterday, Liza?" "I ain't a work'in no moh, Miss Elsie, since I jined de lodge I'se a Lilly now." "what do you mean?" "Oh, I'se jined de Lilly of de Field Lodge ob de Daughters ob Solomon, and de lillies ob de field toil not, neither do dey spin;" —tit
